

ANDRES FELIPE ACOSTA

MULTIMEDIA ENGINEERING

ABOUT ME

Hello, my name is Felipe. I'm a multimedia engineer with frontend experience, having worked at Suntic for 8 months. I have solid knowledge in JavaScript, HTML, PHP, CSS, MySQL and React, and I'm a professional focused on teamwork and continuous improvement.

In addition, I have an intermediate-advanced command of English and a strong interest in video game development, with skills in Unity, C# and 3D animation.

EXPERIENCE

2023 Front-end Developer

Suntic S.A.S

I worked at Suntic S.A.S for a total of 8 months, initially in 2022 as a Frontend Developer and then in 2024 in the same position. I became familiar with technologies such as HTML, CSS, JavaScript and React, as well as learning PHP. I participated in a project where I was responsible for the entire frontend and was also in charge of creating user manuals for the project.
